PATIENT INFORMATION

Our locations share one telephone number 03 8721 0888 for all enquiries. Please let us know if you cannot attend an appointment and need to reschedule.

Medicare imposes restrictions on ordering of certain tests and how often these tests are eligible for a Medicare rebate.

Our friendly staff will check if you are eligible for a Medicare rebate when you book in for your tests.

If further clarification is necessary, we will contact you and your doctor and help to make appropriate arrangements.

This may involve a consultation with one of our specialists or in rare cases you may have to pay an out of pocket fee.

Please bring your referral document, your medication list and your Medicare card with you to your appointment.

TEST INFORMATION

The following tests have specific requirements:

Stress ECG and Stress ECHO:

It is recommended you stop these medications for 48hrs before your tests, unless otherwise instructed by your doctor:

Beta Blockers

Atenolol
 Bisoprolol
 Carvedilol
 Labetalol
 Metoprolol
 Nebivolol
 Oxprenolol
 Pindolol
 Propranolol
 Sotalol

Calcium Blockers

Verapamil
 Diltiazem

Do not stop other blood pressure medications.

Please wear clothes and shoes that make it possible for you to walk fast uphill and/or run.

Holter and 24 hour BP monitor:

Please wear comfortable two piece attire for monitor fitting. The monitors are not water resistant. Patients can perform normal activities except bathing and showering, therefore we recommend you have your bath or shower before you come for the test.
